# This is killing your reach...
🔍 Remove Pending Connection Requests
Why Are Pending Connection Requests Bad?

Pending connection requests can hurt your reach.

LinkedIn's algorithm sees them as a sign that you are trying to connect with people you don't know.

To increase your reach, keep your pending connection requests to a minimum by withdrawing requests that have not been responded to after a 2 weeks.

Here's how you remove old connection requests...

1. Click "My Network"

2. Click "See All"

Manage my network

👥	Connections	16,841
📔	Contacts	10,487
👤	Following & followers	
👬	Groups	5
📅	Events	23
🗒	Pages	23
📰	Newsletters	4
#	Hashtags
